**Automated CJA 20 Hourly Spreadsheet
Setup and Instruction Guide
District of Arizona**

General Information

The Court's automated CJA voucher spreadsheet uses Microsoft Excel for the purpose of calculating and summarizing hours, rates, and other CJA costs. Please download and save this file to use in tracking and computing your CJA related fees and expenses. The spreadsheet is designed to automatically calculate dollar amounts for the hours spent for In-Court and Out-of-Court time, and to add expense entries into the proper categories. In addition, the entered data will automatically upload to the CJA-20 voucher form.

Adjusting Your Computer Settings - IMPORTANT!!

Please read the following very carefully. These instructions will provide step-by-step directions to ensure settings are correct on the PC being used for the voucher preparation.

The CJA 20 Hourly Spreadsheet has an embedded macro that assists with print settings (prevents the printing of empty lines and ensures that any line that has data will be included in the printed document). The following screen prints will display the steps necessary to enable the included Print Setup macro. If you are a MAC user, the **Print / PDF Setup** button and **Sort by Date** button macros do not apply, but please go through the following steps to enable checkbox buttons on the **Voucher** tab.

1. When opening the CJA 20 Hourly Spreadsheet for the first time, you might see a box that looks like **Figure 1**. This means that the security settings in Excel are set to **High** (Click on **OK**). They must be set to **Medium**.

Figure 4

Below in **Figure 2** is the same box, except the help area is not showing. If the **Show Help** button is clicked, it will expand to look like **Figure 1**.

Figure 5

If you did not see the previous box, you might see one like **Figure 3**. This means that the security settings in Excel are set to **Very High**. In either case, they must be set to **Medium** (click on **OK**). If you do not get either of these messages, please skip to step #6 for another message option.

Figure 6

2. Please click on **Tools>Macro>Security...**

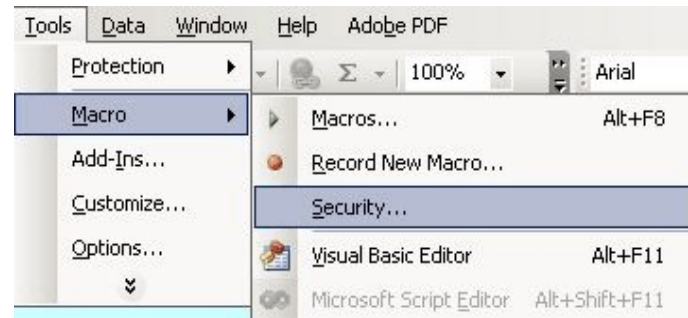

Figure 7

3. As the dialog box screen print illustrates (**Figure 5**), please click on **Medium**. Click on **OK**.
4. Please close the CJA 20 Hourly Spreadsheet (if you are prompted to save changes, please click on **No** and then close Excel).
5. Reopen Excel and then open the CJA 20 Hourly Spreadsheet.

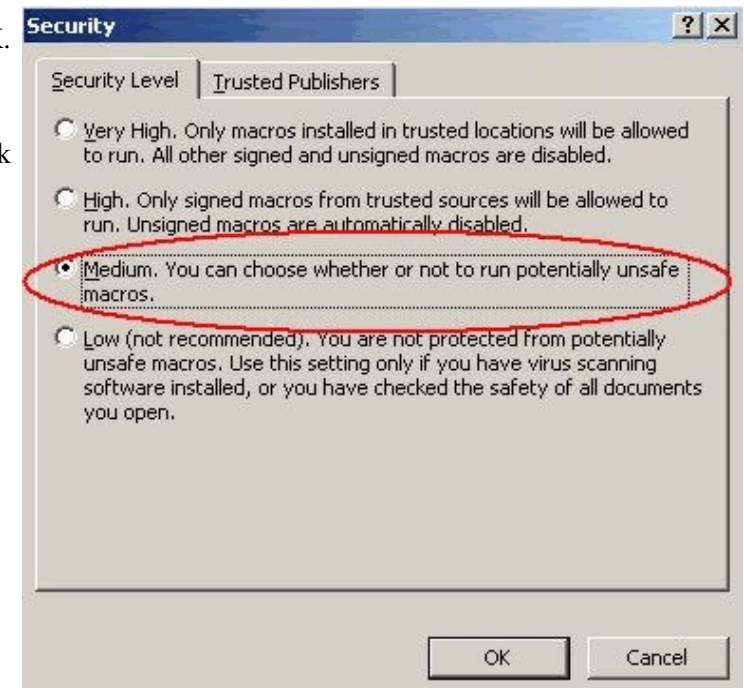

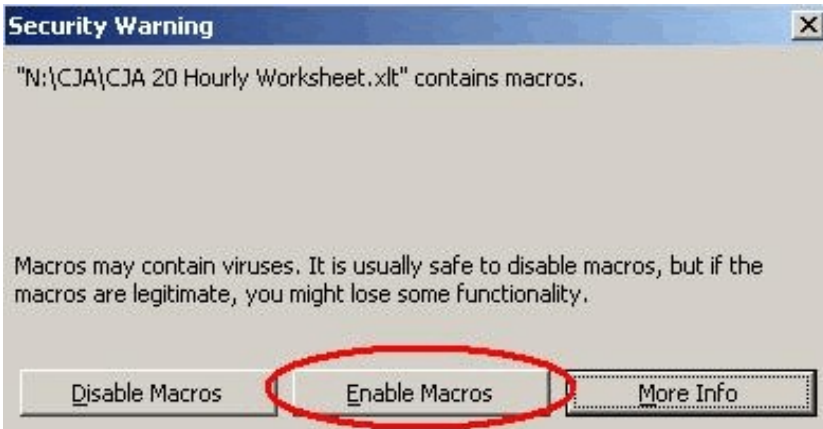

Figure 8

6. Upon opening, a dialog box will display (**Figure 6**). Click on **Enable Macros**.

NOTE: Changing this setting will **not** compromise the security of your PC. It is only causing the PC to give the choice to YOU whether or not to open a file that has macros. From now on, if an Excel spreadsheet file is opened that has a macro incorporated into the file, you will get this prompt and if you do not trust the source of the file, it is important to choose **Disable Macros**.

FYI: If you are having trouble checking the checkboxes on the CJA 20 **Voucher** tab in the spreadsheet, then you have neglected to click on **Enable Macros** when launching the spreadsheet. Close the spreadsheet and re-open to get the message again. If you do not get this message, go back to step 2. If you have **Excel 2007**, scroll down to the **Addendum** (page 12).

Figure 9

Once the **Enable Macros** button is clicked, the file will open to the **Services** tab.

Understanding the CJA 20 Hourly Worksheet Tabs

The CJA 20 Hourly spreadsheet is made up of four worksheets: **Services**, **Expenses**, **Summary**, and **Voucher** as depicted by the tabs at the bottom left of the page. These worksheets are date driven and will automatically calculate rate changes within the dates entered. ★ **It is very important to pay close attention to the dates entered in order to insure accurate calculations for billing!!** ★

- The first tab in the spreadsheet is the **VOUCHER** worksheet tab. This worksheet will display uploaded data entered on the **Services** and **Expenses** worksheets.
- When the spreadsheet is first opened in Excel, the **SERVICES** worksheet tab is displayed. Use this worksheet to record billable hours for **In Court** and **Out of Court** activity.
- Next to the **Services** tab is the **EXPENSES** worksheet tab. Use this worksheet to record other costs such as mileage, travel, copying costs, facsimile costs, etc.

- Next to the **Expenses** tab is the **SUMMARY** worksheet tab. This worksheet will automatically summarize costs of items entered on the **Services** and **Expenses** worksheets.

ADDENDUM

EXCEL 2007 KNOWN ISSUE

There is a known PDF issue using Microsoft Excel 2007. Microsoft is aware of the issue and have published an add-in that may be [downloaded](#) from Microsoft's website. Once you have downloaded the add-in, go back into Microsoft Excel 2007 and open the CJA-20 Hourly Spreadsheet. Click on the **Print/PDF setup** button to set the formatting (the **Print / PDF Setup** button does not apply to MAC users), wait for the *Print* window to display and then click on **Cancel**. Click on the Office button and go down to **Save As...** (DO NOT CLICK). Save As options will display on the right panel, click on the **PDF or XPS** option. Next, a *Publish as PDF or XPS* window will display with the spreadsheet already named. Click the *Save in* down arrow to store the PDF file in the desired directory. Below the *Save as Type* box, there will be a checkbox labeled **Open file after publishing** (this enables the file to launch once it is saved for you to see it). Please make sure that box is checked (only needs to be checked once and then will stay checked). Next, click on the **Options** button. Under the Publish what section, click **Entire Workbook** (this needs to be done every time). Click **OK**. Click **Publish**. The PDF file will automatically launch for viewing.

If when the **Print / PDF Setup** button is clicked, an error displays that indicates the macro is disabled, click on the Office button that looks like this: On the bottom right side of the screen that displays, click on the **Excel Options** button. The *Excel Options* window displays. On the left panel, click on **Trust Center**. Then on the right, click on the **Trust Center Settings** button. The *Trust Center* window displays. On the left panel, click on **Macro Settings**. Then on the right, under Macro Settings section, click on **Enable all macros**. This option must only be set once and will remain until it is changed.

NO ADOBE ACROBAT?

If you only have Adobe Reader and do not have Adobe Acrobat installed, you will not have the option to create a PDF file until you either purchase and install Adobe Acrobat or download a shareware PDF writer from the internet. The benefit to purchasing and using Adobe Acrobat software is the ability to manipulate the PDF file. Acrobat allows you to open the file and rotate, delete, re-order or add additional pages to the existing PDF. However, there are shareware options available, like www.cutepdf.com, that will simply create a PDF file from the Excel spreadsheet and will allow the file to be viewed through Adobe Reader. For this option, click on the CutePDF hyperlink above. Once at the CutePDF website, install the CutePDF Writer (Freeware). Click **Free Download** and the *File Download - Security Warning* window will display. Please click on **Run** (NOT SAVE). Next, the *Internet Explorer - Security Warning* window will display, please click on **Run**. *Setup - CutePDF Writer* window displays, beginning the setup, click on **Next**. Click **I accept the agreement** on the *Setup - CutePDF Writer* window, then click **Next**. Click **Install**. When it is complete, you will get a *CutePDF Writer Setup* window prompting the install of a PS2PDF converter. Click **Yes** to allow the setup program to download and install this free converter. Once that is complete the setup will launch a Readme file. You can close that window and the Internet Explorer window. The download is complete. Launch Microsoft Excel and open the CJA 20 Hourly Spreadsheet. Click on the **Printing / PDF Setup** button to set the print formatting (the **Print / PDF Setup** button does not apply to MAC users). When the *Print* window displays, under the Printer section, instead of selecting a printer, click on the down arrow and choose the new option CutePDF writer. Click **OK**. A *Save As* window will display with the PDF named the same as the CJA 20 Hourly Spreadsheet. Click the *Save in* down arrow to store the PDF file in the desired directory. Click on **Save**. The PDF file should be viewed/opened using Adobe Reader.
